

Gender pay gap report

2024
snapshot

We are serious about creating the best possible environment for our people to thrive and feel at home doing their best work. To do that, there are some very basic things we need to have in place. Feeling supported and being paid fairly are important parts of getting those basics right.

Our Gender pay gap is one way we measure how well we're doing but there are a range of other measures that we use to look at how far we are on our diversity and inclusion journey.
