

Dear

Water pipes in your area

Thank you to everyone who provided access on 18 August for our inspections. We still have a couple of flats to access and these will be contacted directly.

You will continue to see representatives from various contractors on site as we continue to work to provide a specification and programme of works required.

We anticipate these works will be split into two phases, phase one will deal with pipework leading to the block, phase two will deal with pipework within internal flats.

In order to provide better communications with you all we have set up a web page and will provide updates via this page. The link is <https://www.aster.co.uk/gablehurst>

If you have any queries please contact your housing representative in the first instance.

Yours sincerely,

Joanna Capel

Senior Housing Officer
